25X1

The following table lists planned and actual production (Warenproduktion) for the first six months of 1955 of VEB Vorwaerts, one of the enterprises under the Main Administration for Liquid Fuels, Production Area Chemistry, in the East German Ministry for Heavy Industry. <sup>1</sup> All amounts are in metric tons.

| Product                  | Planned Production<br>as of 30 June 1955 | Actual Production<br>as of 30 June 1955 |
|--------------------------|--|---|
| Gas oil                  | 28,550                                   | 29,342                                  |
| Heating oil              | 6,600                                    | 6,205                                   |
| Electrode coke           | 3,330                                    | 3,615                                   |
| Hot bitumen              | 3,850                                    | 3,774                                   |
| Hard paraffin            | 9,500                                    | 9,742                                   |
| Soft paraffin            | 590                                      | 566                                     |
| Special gasoline         | 15,665                                   | 16,811                                  |
| Diesel fuel              | 950                                      | 688                                     |
| Household candles        | 185                                      | 185                                     |
| Christmas tree candles   | 40                                       | 48                                      |
| Special candles          | 117                                      | 129                                     |
| Glueing substance        | 3,090                                    | 2,849                                   |
| Tar hard pitch           | 430                                      | 423                                     |
| Rubber oil (Kautschol)   | 1,180                                    | 1,254                                   |
| Ozocerite                | 112                                      | 144                                     |
| Distillate residue P 15  | 5,530                                    | 5,636                                   |
| Paraffin residue         | 60                                       | 123                                     |
| Paraffin oil             | 140                                      | 145                                     |
| Bellows coke (Blasenkok) | 100                                      | 115                                     |
| Tar residue              | 645                                      | 1,243                                   |
| Briquettes (Presslinge)  | 900                                      | 1,026                                   |
| Gray iron castings       | 325                                      | 424                                     |
| Red brass                | -  | 75                                      |
| Ozocerite residue        | -  | 102                                     |
| Caustic soda solution    | -  | -                                       |
